

SIGNS PROUDLY MADE IN THE USA

As RV campers, we’ve seen our share of lousy signage at parks across the country. Tired of the hassle, we started RV Park Signs in 2007 to be the solution. With over 20 years of sign design knowledge, RV Park Signs has grown into a market leader. Drawing on our own experiences as campers, we aim to boost park appeal with durable, unforgettable designs.

Our parent company GSD manufactures signs and furniture for outdoor sports facilities, and we’re now introducing a durable line of outdoor furniture that lasts 5x longer than our competitors. RV Park Signs focus remains on what our clients need most - quality custom signs.

Let us partner with you to transform your campground with signs and furniture that will impress your guests for years to come. For friendly, knowledgeable service, contact us today!

Site Signs

DESIGNATE

Eliminate camper frustration and boost 5-star reviews with our premium site signs. Heavy .080 aluminum with DOT-approved 3M vinyl lasts 10-15 years. Pre-drilled for quick and easy installation. Choose stock shapes or create your own custom design. Tailor fonts, colors, and backgrounds to your brand to ensure guests find sites easily and head home impressed.

Custom Shapes

Site Signs

Custom

Custom site signage entail a more graphic approach, allowing a greater expanse of artistic freedom. Apply your unique branding guidelines to fit your campground.

Standard

Standard site signs are intended for simple site identification and can be ordered directly from our website.

General Signs

COMMUNICATE

Upgrade your campground’s key areas like offices and amenities with eye-catching informational signs in bold outdoor style. Grab attention with Caution, Regulation, Directional, Novelty, Designation, and Informational signs. Add custom icons and graphics that feel uniquely yours. Revitalize and elevate your campground with a full sign package today.

Standard Signs

STOCK

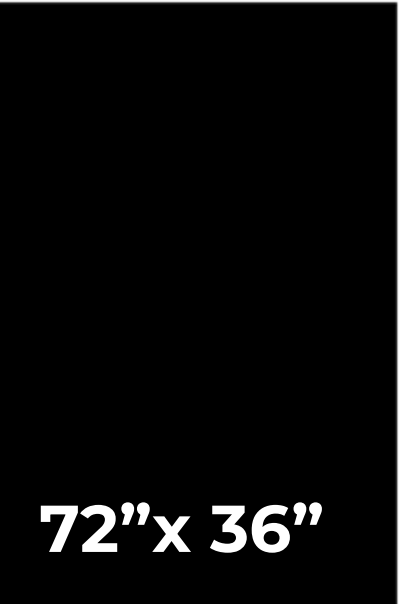

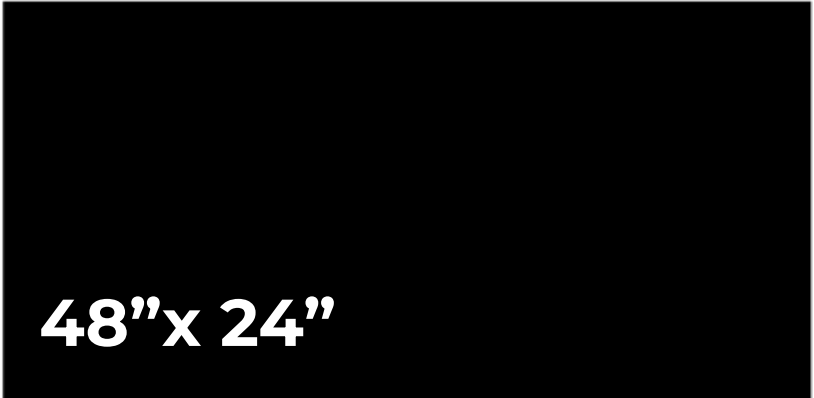

Our standard traffic signs, based on DOT public road indicators, grab attention for clear communication. Pre-made and available in our online shop, these ship out immediately for quick turnaround. Place your order now using the QR code below.

Entrance Signs

WELCOME

Stop traffic, fill sites: Our premium entrance signs pull campers in from the highway and set your campground's vibe instantly. Entrance signs come in a variety of standard shapes and sizes and are highly customizable to represent your brand well. Contact us today to secure your first impression!

Street Blades

DIRECT

Wayfinding at its prime; add character to your street corners with decorative street blades. Our street signs come in a variety of styles depending on logo placement. Sign brackets and post options are also available (see pg. 7).

Materials

SHEET ALUMINUM

Clear, professional, custom signs ensure safe, welcoming navigation for campground guests. Sheet aluminum, often used for road signs, offers versatile options for your facility. High Prismatic vinyl overlay, preferred by the Department of Transportation, provides exceptional nighttime visibility. Choose Engineer Grade for signs that do not require nighttime visibility.

Engineering Grade (EG)
Engineer Grade Reflective sheeting is designed for non-critical traffic signs. Provides ample nighttime visibility of 400-600 feet with a light source. EG has a lifespan of 7-9 years.

High Intensity Prismatic (HIP)
High Intensity Prismatic sheeting delivers superior retro reflectivity for traffic signs. Offers extended nighttime visibility of 800-1000 feet with light source. HIP has a lifespan of 10-15 years.

HDPE

HDPE (High Density Polyethylene) is environmentally friendly composite plastic lumber made from recycled Type 2 containers (milk, soap, oil). Exceptionally resistant to impact, chemicals, moisture, and weather, it delivers unmatched durability—outlasting wood 5x without fading, cracking, chipping, or decaying. Unlike competitors' inferior low-density polyethylene that fails in 2-3 years, HDPE is the ultimate low-maintenance, all-weather solution for lasting beauty and zero upkeep.

-  **Red/ White/ Red**
-  **Green/ Tan/ Green**
-  **Yellow/ Black/ Yellow**

RESIN CORE

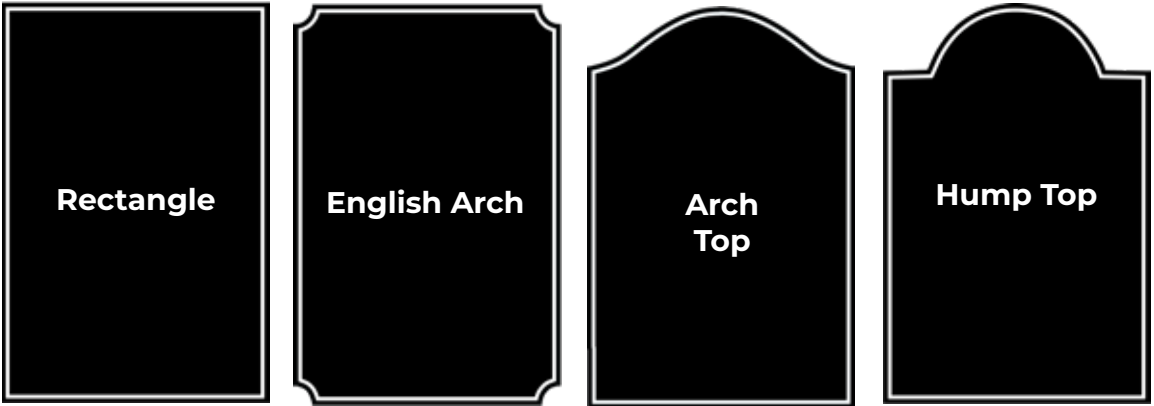

Resin Core delivers affordable, striking signage with a distinctive look. Dual-color layers, exposed by routing, contrast a thick core with thin outer layers. This durable polymer resists fading, cracking, delamination, and harsh weather—perfect for indoor/outdoor use. Ideal for campgrounds, it withstands impact and graffiti with minimal maintenance.

HIGH PRESSURE LAMINATE (HPL)

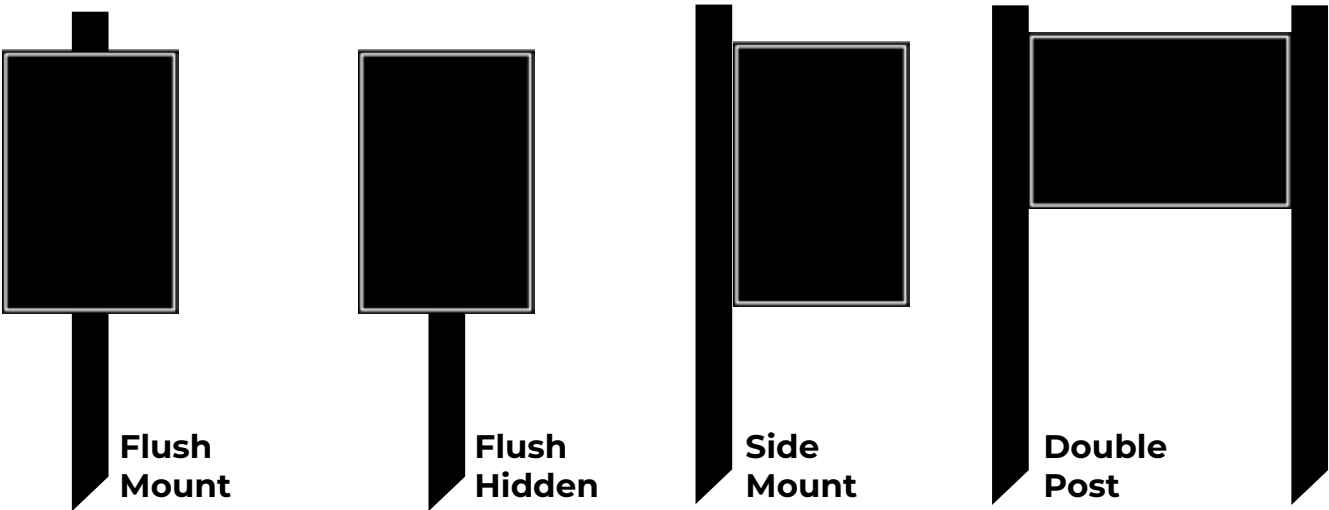

HPL fuses high-resolution graphics and resin-infused kraft paper into a dense, durable thermoset panel. HPL is low-maintenance, resistant to graffiti, and easy to clean. Ideal for graphic-rich signage, its four-color printing delivers vivid images and textures—enhancing campground appeal with lasting vibrancy.

Furniture

COLOR

Stocked in 10 solid colors and 3 woodgrain finishes (available for larger orders). Add a trim or secondary color at no extra cost. HDPE resists cracking, fading, and corrosion for 5x longer life - ensuring beautiful furniture that comes fully assembled and can endure harsh outdoor environments.

STRUCTURE

Our standard build process uses stainless steel hardware and powder-coated screws to withstand the elements. Powder-coated metal bracing prevents warping on all of our furniture. Hidden hardware and smooth HDPE finish means superior guest comfort and safety over wood and nails.
